About Us

M/s Calcutta Engineering Works is an established name in the Indian industry of engineering machinery and technology. With innovation and technology as our backbone, we aim to provide our customers a superior experience with a range of accurate machinery and tools. Established in 2003, we are a Repairer, re-winder and services provider of High tension Motor, Slip Ring Motor, AC & DC Motor, Repairing and refurbishment of Hydro Generator and many more. These machines are used in various industries like Thermal & Hydro power plant, Oil, cement, steel and many more. We also provide our customers with AC & DC Motor and pump Installation, Maintenance & Repairing services and manufacturing of HT Coils.

For the last two decades, we have successfully operated from Hooghly, West Bengal with a strong infrastructure unit equipped with leading-edge technology. This facility is run by a capable team of professionals which gives its best efforts to enhance the efficiency of our products and makes sure that the quality of our products matches the standards of the industry. In addition to this, we are supported by a well-managed logistics division that allows us to effectively deliver our products across the country.
